A block of rooms has been reserved under Ron Smith & Associates at a rate of \$55.00/night and includes breakfast and shuttle to class.

### **Target Audience:**

This course is primarily designed for the more experienced examiner by advancing to the comparison of more complex prints - distorted, multiple impression overlay, tonal reversed, etc. However, it allows less experienced examiners valuable "time under the glass" by starting with less difficult comparisons and proceeding to the more complex comparisons at their own pace. Familiarity with basic

fingerprint terms such as delta, core, pattern area and ridge events are important to understand prior to attending this course.

### **Attendees Should Bring:**

A fingerprint magnifier and ridge counter are required for this class.

Dress is business casual.
