Complex Latent Print Examination

Debbie Benningfield, CLPE and/or Charles Richardson, CLPE

5 Days | 40 Hours | Tuition \$600.00

Course Description:

This course is the next in a series to assist the examiner in understanding the complexity of friction ridge detail. The instruction progresses into the areas of tonal reversal, mirror prints, overlapping prints, distorted prints, etc. Step by step instructions and practical exercises in the ACE-V Methodology will give the students more insight to assist them in properly analyzing these complex prints. Friction ridge detail of the foot will also be presented.

Students will learn the following:

- Searching Smart techniques
- Palm Print location/orientation
- Analyzing complex prints such as tonal reversed, image reversed, overlay, pressure distortion issues, etc.)
- Footprint Ridge Detail
- Daubert issues
- SWGFAST Documentation Standard
- IAI Latent Print Certification Program Overview

Target Audience:

This course is primarily designed for the more experienced examiner by advancing to the comparison of more complex prints - distorted, multiple impression overlay, tonal reversed, etc. However, it still allows less experienced examiners gain valuable "time under the glass" by starting with less difficult and proceeding to the more complex comparisons at their own pace. Familiarity with basic fingerprint terms such as delta, core, pattern area and ridge events are important to understand prior to attending this course.

General Course Information:

This training seminar has been approved for 40 hours of Continuing Education Credit required for I.A.I. Certification and Re-certification. Certificates of attendance, authorized by the International Association for Identification, will be awarded to each student successfully completing the seminar.

Attendees must bring a fingerprint magnifier and ridge counter(s) to class.

Class attire is business casual.

Course 10 of 12 in our Friction Ridge Curriculum.

This course is approved for IAI certification/re-certification
