Fundamentals of Crime Scene Examination and Evidence Collection

Scott Campbell, CSCSA

5 Days | 40 Hours | Tuition \$600.00

Course Description:

This five-day crime scene course provides instruction in the identification, processing, preservation and recovery of physical evidence. Expectations of the public and the courts have risen dramatically over the last several years in the area of physical evidence collection and forensic identification. Working a crime scene is a process that involves a broad range of skills. This course will provide a foundation for the development of the skills needed to identify, photograph, process, and preserve crime scenes and items of evidence found in them. Topics include:

- | | |
|------------------------------------|--------------------------|
| Scene responsibilities & equipment | Crime lab capabilities |
| Scene and evidence photography | Searching & measuring |
| Biological & trace evidence | Footwear & tire evidence |
| Fingerprint processing | Handwriting evidence |

Target Audience:

This course is designed for crime scene investigators, police officers, evidence technicians and other personnel who have the responsibility to identify and properly process, preserve and recover physical evidence at crime scenes. Analysts will also benefit from knowing how the evidence they process is collected.

General Course Information:

This training seminar has been approved for 24 hours of Continuing Education Credit required for I.A.I. Certification and Re-certification.

Certificates of attendance, authorized by the I.A.I., will be awarded to each student successfully completing the seminar. Students should wear appropriate business casual clothing for practical exercises conducted both inside and outdoors. Students are asked to bring a digital camera (digital SLR preferred), lens, batteries for camera and flash, digital media, off camera flash with remote cord, tripod (if available), a flashlight, a basic fingerprint kit and user manuals for all equipment. These items are not required to attend class but students are strongly encouraged to bring them to enhance their learning experience.

Course 2 of 7 in our Crime Scene Curriculum.

This course is approved for IAI certification/re-certification
