Introduction to the Science of Friction Ridge Examination

Michael Campbell, CSCSA

5 Days | 40 Hours | Tuition \$600.00

Course Description:

The knowledge of how to evaluate, compare and identify friction skin is accomplished through many hours of training and experience that involves independent study and one on one mentoring by an expert. This course is designed to start that process through a series of lectures, practical exercises and drills that are specifically designed to increase the student's knowledge and foster confidence in the usefulness of the science and their ability to use it. Many different facets of friction skin examination will be explored and the challenges associated with the science will be discussed in detail. Each participant will understand the principles underlying the science and as a result, they should have a practical, functional knowledge of how to examine friction skin upon completion of the course. The course starts by teaching the "language" of friction skin examination and pattern recognition. Then the student will learn how to use all three "levels of detail" and apply ACE-V methodology as the basis for the examination process.

Target Audience:

This course has been designed with many different groups in mind and is suited for law enforcement personnel and students who are new to forensics as well as law enforcement personnel and students who are already familiar with forensic identification matters including experienced 10 Print and Latent Print examiners who are already conducting examinations or are being trained to do so.

General Course Information:

This training seminar has been approved for 40 hours of Continuing Education Credit required for I.A.I. Certification and Re-certification.

Certificates of attendance, authorized by the International Association for Identification, will be awarded to each student successfully completing the seminar.

Class attire is business casual.

Course 1 of 11 in our Friction Ridge Curriculum.

This course is approved for IAI certification/re-certification
