Summary Report

Spring 2017 Tenprint Comparison Proficiency Test #17201 Issued: March 6, 2017

On March 6, 2017, Ron Smith and Associates, Inc. (RS&A) shipped the 2017 Spring Tenprint Proficiency Test #17201. Participants were required to submit their responses no later than May 8, 2017, in order for them to be included in this summary report.

A total of 4 tests were ordered and shipped, with 3 participants returning their responses. The test was provided in both digital and hard copy format and included twenty pattern recognition prints, three sets of known fingerprints for comparison as a "pre-sentencing pack", three single-inked latent prints on checks for comparison to known fingerprint cards, and five side-by-side "AFIS" comparisons.

The results presented in this report reflect whether or not the participants' submitted results agree or disagree with the assigned values, garnered from pre-distribution testing and outlined in *The Manufacturer's Report* (Appendix 1). The primary purpose of a Summary Report is to provide an overall documentation of all the submitted responses. It is RS&A's intention to go a step further and provide more meaningful statistical results by analyzing the submitted responses in relationship to the demographics obtained from each of the examiners participating in this proficiency test. All results and statistics for Test #17201 will be outlined through graphs and charts found in the remainder of this report.

The legitimacy of the expected responses for the Spring Tenprint Proficiency Test #17201 was confirmed through the internal and external vetting of the test and the results.

RS&A strives to maintain the confidentiality of all of its clients and participants. All results are obtained and published using randomly generated test codes. RS&A will not release the identity of any participant without the written consent of the participant and/or the agency involved.

For any additional information, please contact the Tenprint Proficiency Test Coordinator at testing@ronsmithandassociates.com or call toll free at 1-866-832-6772.

Test Manufacturer's Information

Spring 2017 Tenprint Proficiency Test #17201

This test consisted of four parts: pattern recognition, comparison of multiple tenprint cards, comparison of single inked fingerprints to tenprint cards, and side-by-side comparisons of unknown to known fingerprints. The assigned values for each part of the test are as follows:

Part 1: Pattern Recognition

Image #	Pattern Type
1	Right Slant Loop
2	Arch
3	Right Slant Loop
4	Whorl
5	Left Slant Loop
6	Arch
7	Right Slant Loop
8	Right Slant Loop
9	Arch
10	Whorl
11	Arch
12	Left Slant Loop
13	Left Slant Loop
14	Whorl
15	Arch
16	Whorl
17	Left Slant Loop
18	Arch
19	Whorl
20	Left Slant Loop

Part 2: Pre-Sentencing Packet

The following are the fingerprints of the same person:

"Known Fingerprints of 'Josef Antonia'" and "Known Fingerprints of 'Franz Casimir"

Part 3: Fraudulent Checks

What can you conclude about the fingerprint on Check #1?

The fingerprint found on Check #1 is the fingerprint of "David Patrick".

What can you conclude about the fingerprint on Check #2?

The fingerprint found on Check #2 is the fingerprint of "David Patrick".

What can you conclude about the fingerprint on Check #3?

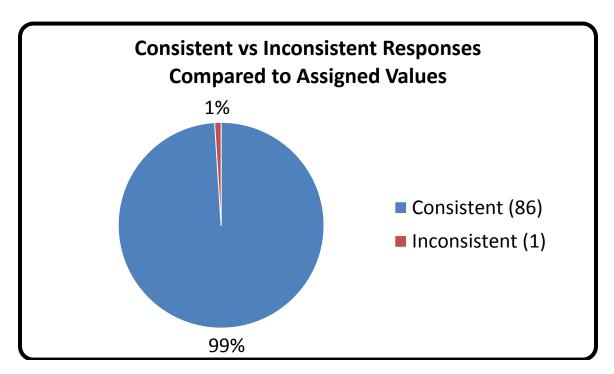

The fingerprint found on Check #3 is the fingerprint of "David Patrick".

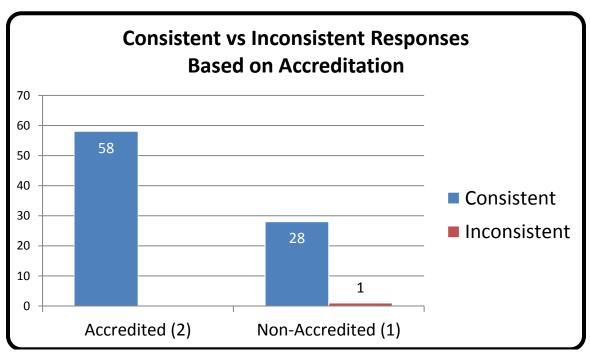

Part 4: AFIS Side-by-Side Comparisons

Comparison #	Conclusion
1	Exclusion
2	Identification
3	Identification
4	Exclusion
5	Exclusion

The test was provided in hard copy photograph and/or digital image formats. The assigned values were determined through the ground truth information and verified through unanimous agreement during pre-distribution testing.
