## Summary Report

Fall 2017 Footwear Comparison Proficiency Test #17302

Issued: August 21, 2017

On August 21, 2017, Ron Smith and Associates, Inc. (RS&A) shipped the 2017 Fall Footwear Comparison Proficiency Test #17302. Participants were required to submit their responses no later than October 23, 2017 in order for them to be included in this summary report.

A total of 12 tests were ordered and shipped, with 10 participants returning their responses. The test was provided in both digital and hard copy format and included seven questioned impressions and two sets of known footwear impressions.

The results presented in this report reflect whether or not the participants' submitted results agree or disagree with the assigned values garnered from pre-distribution testing and outlined in **The Manufacturer's Report** (Appendix 1). The primary purpose of a Summary Report is to provide an overall documentation of all the submitted responses. It is RS&A's intention to go a step further by providing more meaningful statistical results through analyzing the submitted responses in relation to the demographics obtained from each of the examiners participating in this proficiency test. All results and statistics for Test #17302 will be outlined through graphs and charts found in the remainder of this report.

Prior to distribution of this test, all of the expected responses were determined to be either "Identification" or "Exclusion"; however, we are aware that some agencies allow for a conclusion of "Inconclusive" in their casework. In designing this Proficiency Test, there was no intention to force a participant to render a conclusion which goes beyond their considered opinion. To satisfy this option, participants were allowed to enter "Inconclusive" as a response. Due to the fact that a participant's "Inconclusive" response does not meet the assigned values, it will appear as an inconsistent response in the summary report and be incorporated as such in the statistical analysis. It will be up to each agency to decide if the participant's "Inconclusive" response qualifies as being acceptable under their policies and procedures.

RS&A strives to maintain the confidentiality of all of its clients and participants. All results are obtained and published using randomly generated test codes. RS&A will not release the identity of any participant without the written consent of the participant and/or the agency involved.

For any additional information, please contact the Footwear Proficiency Testing Coordinator by emailing [testing@ronsmithandassociates.com](mailto:testing@ronsmithandassociates.com) or by calling toll free at 1-866-832-6772.

## Test Manufacturer's Information

### Fall 2017 Footwear Comparison Proficiency Test #17302

The assigned values are:

<b>Questioned Impressions Q-#</b>	<b><u>Conclusion</u></b>	<b>Known Shoe K-#</b>
Q-1	Exclusion	
Q-2	Identification	K-3
Q-3	Identification	K-4
Q-4	Exclusion	
Q-5	Identification	K-1
Q-6	Identification	K-1
Q-7	Identification	K-3

The test consisted of seven questioned impressions and two known shoe prints in hard copy photograph and/or digital image formats. The assigned values were determined through the ground truth information and verified through unanimous agreement during pre-distribution testing.
