Test Manufacturer's Information

Latent Print Processing Proficiency Test #21502

This proficiency test consisted of four items labeled as Item #1 (Paper Bindle), Item #2 (Electrical Tape), Item #3 (Syringe) and Item #4 (Aluminum Foil). The items were similar to those normally encountered in latent print processing casework. The participant was required to process the items for the presence or absence of friction ridge detail. The assigned values are as follows:

Item #	Assigned Value
Item #1 (Paper Bindle)	Friction Ridge Detail <u>Was Not</u> Developed
Item #2 (Electrical Tape)	Friction Ridge Detail <u>Was</u> Developed – Supported with Electronically Captured Image
Item #3 (Syringe)	Friction Ridge Detail <u>Was</u> Developed – Supported with Electronically Captured Image
Item #4 (Aluminum Foil)	Friction Ridge Detail <u>Was</u> Developed – Supported with Electronically Captured Image

The assigned values below were determined through the ground truth information and verified through unanimous agreement during pre-distribution testing.

Known Matrix used:

Item 1: N/A, Item 2: Sebaceous oils, Item 3: Sebaceous oils, Item 4: Sebaceous oils

Individual reports will be provided to participants by mid November 2021. The final summary report for this test will be posted on the Ron Smith and Associates website by late November 2021 using the following link: <http://www.ronsmithandassociates.com/proficiency/lpprocessing.html>

It is recommended to postpone evaluating an individual's performance until after you have received the statistical averages contained in the summary report.

For any questions or further information, contact the Proficiency Testing Coordinator by emailing testing@ronsmithandassociates.com or call toll free at 1-866-832-6772.
